Technical drawing of a cross-section of a railway track. The drawing shows a concrete slab (Beton) with two rails (S0) mounted on it. The track is supported by a sloped embankment on the left. Dimensions are given: a total width of 2.50 from the centerline to the left edge of the slab, a width of 2.00 from the centerline to the right edge of the slab, and a height of 1.00 for the embankment. A small step of 0.15 is shown at the base of the embankment. The centerline is marked with a dashed line and labeled 'GA'.

Technical drawing of a wooden beam with metal reinforcement. The top view shows a beam with a central section labeled 'GA' (galvanized steel) and two side sections labeled 'bl' and 'br'. Dimensions are 1.50 and 1.55. The side view shows a cross-section with a wooden core labeled 'Holz' and a metal reinforcement layer labeled 'Metall'. The total height is 0.45 and the width is 0.46.
